

HDMI to VGA Video Adapter Converter with Audio

Convert an HD video signal to VGA, with discrete audio output

Model No.: HD2V23

Version: 1.0

| HD to VGA | Stereo 3.5mm Audio Interface | 1920 x 1080 60Hz |

The HD2V23 HD to VGA Adapter Cable enables you to connect an HD output device, such as a laptop video output or digital media extender to a VGA display device (monitor, projector) by converting the HD video signal from the output device into a VGA output and separate 2-channel analog audio. The HD to VGA adapter is intended for displaying user generated content such as presentations, documents, and work sheets onto a VGA projector or monitor. The adapter can also extend your computer's desktop to double your workspace and increase productivity.

The versatile converter supports resolutions including high definition 1080p, which eliminates the expense of upgrading a VGA display for the sake of compatibility, and doesn't require a separate power adapter which saves installation time and hassle.

Specifications

Connector A	1 - HDMI (19 pin)
Connector B	1 - VGA (15 pin)
Connector C	1 - 3.5 mm TRS
Max. Analog Resolutions	1920 x 1080 60Hz
Max. Digital Resolutions	1920 x 1080 60Hz
Material	Plastic
Product Dimension	
Product Weight	
Included in Package	1 - HD to VGA Converter

Applications

Connect your HDMI-enabled laptop or ultrabook to a VGA projector or display in boardrooms, hotel rooms, in the office, or at home.

Features

- Supports resolutions up to 1080p
- 2-channel analog audio output
- Easy to use with no software required
